

Name of the Course: Computer Science

Course Overview

PhD course aims to develop a dynamic researcher which enables them to adapt according to the ever changing needs in the field of computer science in the years to come. The competencies inculcated during the course can be transferred to other disciplines to enrich the content of various disciplines. Technology has become a need of the hour; it touches every sphere of human life in 21st century. Comprehending the knowledge of computers enables the researcher to adapt to ever changing nature in the field of computer science. The main objective of the program is to develop disciplined computer professionals to find out new areas for innovations and make them self-reliant.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.

Name of the course: Chemistry

Course Overview:

Chemistry is considered as one of the most prospective subjects for higher education. The subject is getting developed every year and has been covering almost all the major prospects of life. The research scholars who undertake this subject for the PhD course have bright future all over the world. The various topics that it covers are designed to create new knowledge which provides greater job opportunities which are challenging and rewarding in the academic as well as Industrial sector.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.

Name of the course: Mathematics

Course Overview:

The Department has always shared the vision of the Institute in striving for excellence in research and teaching activities and has succeeded in this endeavor to a large extent. Over the years, the department has evolved as one of the premier departments in the country providing excellent teaching and research in mathematical and statistical sciences. The vibrant academic environment is nurtured by strongly motivated faculty and provides an opportunity to pursue research in front line areas of basic sciences as well as in interdisciplinary areas of sciences and technology. In the coming decade, apart from the existing areas, the department intends to develop areas related to mathematical aspects of computing science in all its manifestations.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.

Name Of the course: Physics:

Course Overview:

Through a technology enabled effective networking the Physics department innovative methods for knowledge dissemination and knowledge generation. PhD in physics ranges across the most challenging problems in physics which enhance our daily lives. It also allows the researcher to look forward to a future that holds even more exhilarating breakthroughs and advances upon which society will thrive. Research in Physics is the key to many doors of opportunities that opens up to challenging, meaningful and rewarding carriers in industries as well as research centres.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.

Name of the Course: Commerce

Course Overview: PhD degree program in commerce is to prepare experienced business professionals to generate use and share knowledge about teaching- learning, human development and to collaborate with others to solve critical educational and human problems in a diverse global community. The program is designed to integrate field experience and academic study through vigorous coursework and research, allowing scholars continuously apply knowledge and skill in field setting and generate practical, relevant questions for issues needing further study.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.

Name of the Course: Economics**Course Overview:**

Economic activities have been a major concern of human beings, from the time of their evolution. Economic is a dynamic science. In the past few decades GDP growth in India has taken place largely due to innovation and technology. New and latest methods of production, consumption and distribution law can be brought to limelight thereby economically strengthening the nation at large. PhD in economics envisages a probe into the interrelationship of various economic factors. New knowledge can be added to the existing one through empirical testing such that it serves the needs of government agencies, firms, financial Institutions and developmental organizations.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.

Name of the Course: Tourism**Course Overview:**

The Department of tourism aims to conduct, promote and institute research in various fields of tourism with special emphasis on latest issues of tourism. The department extends all kinds of academic guidance to research scholars to understand their area of research effectively and also supports them to achieve excellence. The Ph.D programme in tourism enables research scholars to contribute in connecting various bodies and associations in the tourism Industries such that they are equipped professionally in the vocation of tourism.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.

Name of the Course: Law

Course Overview:

Ph.D program in Law is focused towards legally associated social problems with the intention of providing social Justice. It aims to equip research scholars with critical and analytical ability by providing them theoretical and empirical exposure through comprehensive course work. The research in law enables the scholars to pursue research in the front line areas of basic law as well as interdisciplinary areas of legal research. Thus Ph.D programme produces professional researchers and future leaders in Law.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.

Name of the Course: Education

Course Overview:

Ph.D in Education is a magnificent endeavor of department of education. Education is a dynamic concept and it is ever changing with the needs of the society. This course has a wider scope for the doctoral students to undertake descriptive and experimental studies, and investigate some crucial problems in the field of education. It suggests suitable remedies and makes significant contribution towards various academic and administrative practices. It also initiates various innovative strategies and methods to improve teaching- learning practices.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.

Name of the Course: Media Studies

Course Overview:

The Department of Media Studies is an established academic discipline. The department of media studies contributes to deep research in media arts practices. PhD in media studies seeks to

nurture the students of artist scholars and assist them as they seek to define new art and research practices of the 21st century. The department of media studies is committed to supporting excellence and originality in research. The Ph.D course helps the researcher to acquire a comprehensive knowledge of media through theoretical, historical and critical framework in order to contribute for the welfare of public.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.

Name of the Course: Management

Course Overview:

The Ph.D programme in the Department of Management studies involves in-depth research works in different functional areas of management. The Department encourages aspiring and meritorious student to pursue research. The course work provides theoretical and empirical exposure pertaining to different aspects of research, which enables the research scholars to take up research in the contemporary areas of management science like Corporate Restructuring, Accounting Systems, Financial Regulations, Business Excellence, Emerging Markets, Financial Derivatives, and Risk Management Portfolio Theory .Thus the Ph.D programme enables the scholars to acquire the necessary knowledge and skills to implement in academic and corporate sectors.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.

Name of the Course: English

Course Overview:

English being a large storehouse of knowledge is a language of great importance for a country like India. Rich literature can be critically analyzed and deeply explored through research. A PhD

program in English generally prepares graduates for teaching and research oriented career as an English professor for a college or university. Research scholars are usually required to choose a specialization within the degree program, such as literary theory, professional writing, rhetoric, linguistic or the study of a specific group or a major period of literature.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.

Name of the Course: Philosophy

Course Overview:

The PhD program is designed to provide researcher with a broader knowledge in the field of philosophy, while giving them opportunities to work intensively on the issues that interests them the most. The Ph.D course work intends the research scholars to acquire the contributors of great philosophers to apply the same to nurture Interdisciplinary researches and thus actively involve in the development of research.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.

Name of the Course: Social Work

Course Overview:

The PhD program in Social work will enable research scholars across the globe to pursue their research work leading to a doctoral degree. The doctoral program in social work aims in training professionals (both teachers and practitioners) in the skill and competence related to the systemic investigation of various issues and problems related to social work. Thus, the Ph.D programme enables the researcher to get insights into the professional as well as societal problems in ordered to provide suggestions.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.

Name of the Course: Sociology**Course Overview:**

The PhD in sociology is an academic degree awarded for extensive study and research in this subject matter. This degree is very closely related to all the other sciences such as psychology, economics, anthropology and political science. The course work in sociology includes both micro and macro aspects related to social welfare. Its approaches are both qualitative and quantitative in nature. The Ph.D programme enables the researcher to acquaint with systemic methods of Investigations and critical analysis to develop and refine a structure of knowledge about human behavior and activities.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.

Name of the Course: Psychology**Course Overview:**

The Ph.D in Psychology helps the research scholar to have a better insight about the behavioral and mental process of the human beings. The course work emphasizes on the various tools and techniques used in research and also provides deeper knowledge about the quantitative and qualitative analysis in research.. Ph.D programme in Psychology encourages research Scholars to conduct research in the areas like Social Psychology, Cognitive Psychology, Cross –Cultural Psychology and Social Cognition. Thus, the research scholars can contribute for the development of Inter disciplinary research which in turn helps life missions that integrate psychological understanding to life.

Eligibility:

- A pass with 55% marks in post graduation and M.Phil in the relevant subject from any recognized university.
- A research proposal (Maximum 1500 words) has to be submitted along with the application.
