## TESTIMONIALS

FROM FINAL YEAR BCOM AND MCOM STUDENTS

The session was very elaborate in the sense that it emphasized on the importance of a complex and strategic process for deal advisory in Mergers and Acquisitions. Market fluctuations and market volatility are directly impacting the processes and hence require strategic planning and careful execution in every step of the process. From securitizing assets, paying off liabilities to managing and paying off pending transactions in the firm, each step requires elaborate processing.

For the seller it is important to manage their potential risks regarding the deal execution in the effective manner with minimal disruptions due to external factors. For the buyers on the other hand it is important to create a value addition chain in every process to align with the deals and compliance services in accordance with the business objectives in every turn.

Following up with the Deal is all about planning and execution while carefully analysing for potential market disruptions, it becomes complex as more factors weigh in, this makes the process for deal execution to be broken down into simpler functions to effectively manage key departments and transactions with a deeper insight.

**Takeaways:** The session was very helpful in understanding the process of how mergers and acquisitions take place in real time and how companies like KPMG follow a complex and elaborate process to make sure such deals are managed without any disruptions especially due to the stock market conditions majorly impacted by the current pandemic. All in all, one can say that the session threw light on the insight and processes which take place during a Merger and Acquisition. It was extremely worthwhile in my personal opinion and I look forward to more such sessions giving much clearer insight and key takeaways from the experts into the practical field.

How did you like the session?

It was a very informative and well planned session that gave us lot of insights about Mergers and Acquisitions. A well set presentation with the required contents kept the session interesting throughout.

What impact has the session made on you?

The session built in a curiosity to know and learn more about the field of Mergers and Acquisitions and explore the interesting concepts put forward in the session.

Overall learning

The session definitely that a lot of things to grab and expand our knowledge about M&A. The various topics covered in the session were very relevant and useful.

**Harshitha K S,  
5 BCom**

How did you like the session?

I enjoyed the session being someone interested in M&A and hoping to pursue a career in M&A. It was well-planned and paced perfectly. The speakers had been thorough and yet managed to condense a lot of information for the topic.

What impact has the session made on you?

The session made me want to read further about M&A especially more about Due Diligence since so far I've mostly been studying about valuations and reading up on new M&A deals in my usual perusal. It made me realize there's an important fact that hasn't been given due importance.

Overall learning

As someone who has already read up on M&A the session still held a lot especially in explaining the importance of due diligence and I definitely learnt of new things that were earlier being discounted in terms of its importance. It was an awakening of sorts and I really appreciated it. Besides that, since I am generally aware of the other details related to M&A I could tell a lot of effort was taken to plan the content.

How did you like the session?

I personally felt that the session was fruitful and enlightened us about mergers and acquisition concepts and process. We usually hear about the advisory services or audit services but merger and acquisition knowledge is rare and hence it gave us insights on the same.

What impact has the session made on you?

The session has inspired me to go back and research on this topic. From the session I realized that having a career path with mergers and acquisition department can be a great opportunity for any individual as it gives immense opportunity and learning growth curve for a fresher. Also, the session provided me with the view that mergers and acquisition is a very interesting field which i would definitely want to explore in my future.

Overall learning

Gained better clarity on the concept of mergers and acquisition, how it is carried out at KPMG, growth opportunities in the sector and importance of the field.

It was a great learning experience and made me explore which I had never done before.

Thank You

**3 MCom**

How did you like the session?

The session was very realistic in the present business world, as it gave many insights, a lot of scope on business world which would enhance our knowledge and keen interest in the field of mergers and acquisitions. The presentation went in good flow with few discussions and engagement of students.

What impact has the session made on you?

The session had a good impact with the Case studies, live business scenario examples, deal advisory, due diligence etc. The pleasant and detailed explanation based on the concepts of investors such as strategic investor and financial investors, real business examples, valuation methodologies, deal structure concepts had a good impact on the topic mergers and acquisition.

Overall learning was to understand the live examples such as Walmart, HCL, OLA, Flip kart examples and to learn about various strategies, due diligence, compliance etc. Thus the session was very useful, interesting, and fully equipped with lot of interesting facts, information and engaging.
