Synopsis of the Activity (Description)

| | |
|----------------------------|---|
| Highlights of the Activity | <ol style="list-style-type: none"> 1. Explanation of UI/UX, its importance etc 2. Hands-on Introduction to basics of HTML |
|----------------------------|---|

| | |
|-------------------------|--|
| | 3. Poster making activity on points discussed in the session |
| Key Takeaways | 1. Importance of UI/UX in software development 2. Intuition on how web development is done |
| Summary of the Activity | The session, taken by Dr Mausumi Goswami, had 61 participants. It began with explaining the importance of technology through a story of how VR was used to virtually reunite a grieving mother with her dead daughter. Then UI and UX, and their importance, were defined. This was followed by a web development introduction, in which students built simple HTML web pages. Finally, students were divided into teams of 5 for a poster making competition: the poster had to summarize all discussed points. |

| Summary of the Activity | <p>The session began with a short introduction to data, data structures, data design, etc. This introduction also established the importance of problem solving using a set of programming skills.</p> <p>Following the introduction, the students were engaged in a small individual activity where each one of them were asked why and how did they join engineering. The students were then instructed to use Google Colab to carry out a few practical activities such as Basic Constructs of Python, Matrix Operations and K-means Clustering. To conclude the day, the students were made to take a quiz to gauge their understanding of the topics and concepts that were covered during the session. After which a feedback form was rolled out for all to fill.</p> |

| Summary of the Activity | <p>The introduction to the session started out with outlining what is data, its importance and application. A brief description about problem solving was given along with many different approaches. Many different points such as Data Science, Artificial Intelligence, Big Data were touched upon after the introduction. Thereafter, the students were taught how to create good UI experiences for users. With that knowledge, students were tasked to make a poster to highlight the UI design and methodology for a unique business/project idea. To conclude the day, the students were required to fill out a feedback form.</p> |

NOTE FOR APPROVAL

NFA – EEP Workshop on 13th, 14th, 19th, 20th July 2023

Ref: NFA/CU/SoET/2023-24/CSE/

DATE: 13/07/2023

- 1) The experience Engineering program is being conducted in Computer Science and Engineering Department on 13th, 14th, 19th and 20th July 2023. (Annexure 1)
- 2) 430 Chemistry cycle students attend sessions in 8 different venues simultaneously on 13th and 14th July on two different days.
- 3) 430 students from Physics cycle are attending sessions in 8 different venues simultaneously on 19th and 20th July .
- 4) A few activities along with demonstration and hands-on sessions are planned to encourage enthusiastic participation of the EEP event.
- 5) There is a Poster Making (Competition) and User Interface Design activity being conducted as a part of it.

Prize as Chocolate box / Pen set in 14 venues: $540 * 14 = \text{Rs } 7,560 / = \text{Rs } 7,560/$

Snacks on 2 days $\text{Rs } 30 * 35 * 2 = \text{Rs } 2100 /$ Total = $\text{Rs } (7560 + 2100) = \text{Rs } 9,660/$
