About CHRIST (Deemed to be University)

CHRIST (Deemed to be University) was established as ‘Christ College’ in 1969, with the Vision of 'Excellence and Service'. In 2004, the University Grants Commission (UGC) of India conferred autonomy to Christ College and recognized it as an Institution with Potential for Excellence in 2006. Subsequently, in 2008, under Section 3 of the UGC Act of 1956, the Ministry of Human Resource Development of the Government of India declared the institution as a Deemed to be University, in the name and style of Christ University.It is one of the first institutions in Karnataka to receive accreditation from the National Assessment and Accreditation Council (NAAC) in 1998. Since then, it has been reaccredited in 2004, 2016, and 2022, and currently holds an 'A+' grade with a CGPA of 3.42 on a 4-point scale. The six campuses of the University, four at Bengaluru in Karnataka, one at Pune Lavasa in Maharashtra, and one at Delhi National Capital Region (NCR) promote harmonious multiculturalism with students from all the states and Union Territories of India and about 50 foreign countries.The University offers various Undergraduate, Postgraduate, and PhD programmes in Arts and Humanities, Social Sciences, Science, Psychological Sciences, Commerce, Management, Engineering, Education, Law, and Architecture.

School of Business and Management (SBM)

The School of Business and Management (SBM) offers undergraduate, graduate, and research programs in Management, Hospitality, and Travel & Tourism. This institution stands out among business schools in India due to its extensive scale of operations, diverse student body, and representation from across the country, all while providing high-quality education at a competitive fee structure. SBM is also ranked 60th in the Management category by NIRF 2024.A hallmark of SBM is experiential learning, which includes live projects, internships, and service learning, complemented by co-curricular and extracurricular activities. The institution features an incubation center that helps create ecosystems for aspiring entrepreneurs, providing resources and mentorship to foster innovation and business development. In the MBA program, case studies from Harvard and other esteemed sources enhance the learning experience. As a dynamic hub for nurturing future business leaders, SBM prepares students to navigate the complexities of a globalised environment. Specialisations offered include Marketing, Finance, Human Resources, Lean Operations & Systems, and Business Analytics. With over 30 years of experience, the School of Business and Management delivers the MBA program across its campuses in Bengaluru Central Campus, Yeshwanthpur Campus, Bannerghatta Road Campus (BGR), and Kengeri Campus, in Pune-Lavasa and Delhi NCR.

Centre for Executive Education (CEE)

The Centre for Executive Education (CEE) at CHRIST University is dedicated to fostering leadership and professional growth among industry professionals. As part of the School of Business and Management, CEE offers tailored Management Development Programmes that equip participants with essential skills for career advancement. With a focus on social responsibility and collaborative learning, CEE aims to enhance both individual and organizational performance in today's dynamic business environment.

SUPPLY CHAIN NETWORK, DESIGN & ANALYTICS

About The Programme

In today's fast-paced business environment, a well-structured supply chain network is crucial for achieving operational efficiency and competitive advantage. This intensive management development programme provides participants with insights and practical knowledge to enhance their understanding of supply chain design and analytics. Over three days, participants will engage in interactive sessions, computer-based practical sessions, and discussions with leading experts in the field. Supply Chain Analytics, Implementation Strategies and simulation topics are covered with practical training to enable participants to achieve a comprehensive understanding of how simulation techniques can optimise supply chain operations, enhance decision-making processes, and enable strategic implementation of insights.

WHO SHOULD ATTEND: CORPORATES, ENTREPRENEURS, ACADEMICIANS AND RESEARCHERS

*Registration fee includes a welcome kit, lunch and refreshments during the MDP

OBJECTIVES OF MDP

- To analyse and design Supply Chain Networks
- To optimise Supply Chain Networks
- To understand the application of tools and techniques for Supply chain network optimisation
- To understand the modelling aspects
- To enable data-driven decisions using various Tools and Techniques for supply chain network optimisation

Programme Highlights and Key Takeaways

- Comprehensive understanding of supply chain design, networks and analytics
- Supply chain Strategies and design principles
- Supply Chain Network Modelling and Simulation
- Supply chain n/w in infrastructure
- Application of Excel Solver, Power BI, AHP tools
- Networking opportunities with industry experts and peers
