# ONLINE WORKSHOP

## QUANTITATIVE RESEARCH METHODS : DATA ANALYSIS USING SPSS AND AMOS

(Theory to Practice)

Master SPSS, AMOS, AND Quantitative Research methods in 10 hours through practical data analysis and SEM.

**Resource Person**

**Dr. Stanny Dias**

Assistant Professor  
Department of Business &  
Management (MBA)  
CHRIST (Deemed to be University)  
Pune , Lavasa Campus

**Date & Time**

**Every Saturday From  
27th June, 2026  
06 PM - 08 PM**

More Info :

## DR STANNY DIAS

Dr Stanny Dias is an Assistant Professor at CHRIST (Deemed to be University) with expertise in quantitative research methods, consumer behaviour, technology adoption, data analysis using SPSS, AMOS and meta-analysis. He holds an MBA and a PhD, and has experience in hypothesis testing, structural equation modelling, mediation and moderation analysis, and empirical research. He has presented research at international conferences and contributed to academic publications (Q1) in areas including fintech, EV adoption, and GenAI.

# WORKSHOP HIGHLIGHT

- Gain practical skills in quantitative research methods using SPSS and AMOS for data-driven research.
- Learn hypothesis development, data cleaning, descriptive statistics, reliability, and validity testing.
- Apply Structural Equation Modelling (SEM), mediation, and moderation analysis through hands-on exercises.

Learn to analyze, interpret, and report quantitative research data effectively in just 10 hours, from theory to practice using SPSS and AMOS.
