

Report on “Multidiverse Career by Mr. Suresh Balsubramani” organized by Department of Life Sciences as a part of employment preparedness initiative

Life Science Association, Department of Life Sciences, CHRIST (Deemed to be University), Bangalore jointly with Rotary club, Indiranagar organized a career guidance talk for 2nd year M.Sc. students on 26th and 30th December, 2020 from 8 to 9 pm. Mr. Suresh Balsubramani was the resource person and Dr. Anish Nag along with Rotary Club coordinated the event. In two sessions altogether 42 students attended the talk. Mr. Suresh addressed various key aspects of the career opportunities available to the students.

The screenshot shows a Zoom meeting interface. At the top, there are video thumbnails for participants: Suresh Balsubramani, Dr. Anish Nag, Rotary Indiranagar, Hariprasath Ragupathy, and VNRaju Erumalla. A green notification bar indicates 'You are viewing Suresh Balsubramani's screen'. The main content is a presentation slide with the following text:

Industry Opportunities in Biotechnology
Key takeaways

- Most importantly, Think future not present (20 years out)
- Gain a total understanding of all that is currently happening in plant biology, in animal biology, and in human biology – they are interchangeable
- Think of 1 or 2 disciplines you can combine with biology
- Sharpen your math skills from school/early college – Analyse a problem looking for data, If possible learn some coding, learn the basics of Python or R
- Discover skills outside 8am to 5pm, Invest in 5pm to 8am
Spend time cultivating this, nurture this
