

## 1. Success Stories:

**Rishikesh Ragavan**

ACCA Affiliate

Audit Associate- KPMG

“BBA F&A gives you a professional edge through its ACCA affiliation. Well trained faculty guide the students through the ACCA qualification which opens up a plethora of job opportunities. The course gives great importance to soft skill development which is very useful in the industry. The department prioritizes additional courses like Advanced Excel which give students a comfortable upper hand in the corporate world. This unique program challenges the students to be creative and prepares them for the business world through its comprehensive project work. Emphasis on research papers, business conclaves and fests gives an added exposure to the students who make use of this opportunity”

**Riya Jain**

ACCA Affiliate

Lead Assurance Associate

(EY GDS, WAM for EMEA

“BBA Finance &Accountancy under the department of professional studies is one of the most dynamic professional course I have come across. The blend of BBA subjects with ACCA helps in getting an edge over other courses. The timings of the course, along with the flexible add on courses prepares one for the corporate life and also gives the liberty to chose their specialisation as a very young age. As the subjects are aligned with ACCA the foundation of ACCA exams becomes very strong. This further helps in choosing the optional level papers. Overall, the programme focuses not just on the academic aspect but also at holistic development, bridging the gap between academia and corporate requirement by having add on courses like Advanced Excel, SAP and Portfolio Management, Six Sigma and internships”

Darsh Goleccha

ACCA Affiliate

Founder, Monech

"My 3 years at Department of Professional Studies were an amazing adventure. The BBA Finance and Accountancy programme integrated with ACCA helped me understand the different spectrums in the field of Finance, in a very short span of time. The internship opportunities; Business Fest experiences; Skill trainings like Advanced Excel, Six Sigma; Cultural avenues, Social welfare inculcations - along with continuous learning made my experience a memorable one. The icing on the cake was when I was given the opportunity by the Department of Professional Studies to create an Event I envisioned - INC.LINE - themed around Entrepreneurship. Organising that for 3 months was the best decision I made & I realised what I wanted to do - to innovative in the field of Finance. The one thing that makes CHRIST university different is the Zeal within the University, Department, Faculty members and Students to do something different - 'Out of the Norm'. There is always support for those who take initiative - it's the hunger for excellence that makes the difference"

Kathyayini Madduri

ACCA Affiliate

Pursuing M Sc Accounting & Finance

London School of Economics

"The BBA Finance & Accountancy programme helped me grow on an academic, professional, and personal level. I found the syllabus to be very expansive, with an emphasis on conceptual learning. Due to the integrated nature of the course and the 9 exemptions we receive, I was also able to complete the ACCA qualification simultaneously. Through the professional skills classes conducted by the department, I gained exposure to Advanced Excel, Tableau, and Python, all of which are highly valued by employers. Academics aside, there is no dearth of opportunities for those looking to participate in extracurricular activities as well. The department and university host several fests every year with various art, theatre, sports, literary, and business-themed events. I was a part of the department theatre team and magazine editorial team, and these experiences gave me not just cherished memories and friendships, but also valuable lessons in leadership, time management, and teamwork. I learnt so much during my time here, and though the programme is fairly rigorous, the (very) early mornings and late nights are

**Rose Anns Biji**

Financial Research  
Associate

D E Shaw

“Enrolling for the BBA F&A program has been one of the greatest choices in my life. The BBA Finance & Accountancy programme has not only exposed me to exemplary lectures and experts in the field of Finance/Accountancy, it has helped cultivate in me a feeling of ambition and determination which enabled me to become an ACCA Affiliate even before graduating. My success can also be attributed to the distinctive time schedule of the course. Since classes started at 6.30 a.m., we had the unique opportunity of making our days more productive and fruitful. DPS was equally active in extra-curricular activities be it dance, singing, public speaking or theatre. My experiences speaking on stage and the confidence that other departmental activities had infused in me have surely given me the advantage I needed to crack the Goldman Sachs and D.E. Shaw interview. To conclude, it was an amazing three years in BBA F&A and I
