Career Guidance Sessions 2018-19

**REPORT ON LOGICAL REASONING AND QUANTITATIVE
APTITUDE TRAINING BY TIME**

Date: 30-11-2018 and 1-12-2018

Time : 9.30AM- 4.00PM

Venue: Block 2

DAY 1(30th November 2018)

The first session that we had was about case analysis. It involved analysing a particular situation and finding out the best possible solution to it. We used different tricks and ways to find the solution. It was a very interesting and fascinating class , we never thought that the same problem or situation can be solved in so many different ways. We were learning the case analysis in depth for the first time and it was made very interesting by the faculty of TIME. It was clearly seen that most of the students were eager and anxious to learn more.

On the same day we had another session which included logical ability and English grammar. In the LR we were given certain statements and we were expected to give the best suggested course of action which can mitigate or solve the problem. All the course of actions were almost similar and it was very strenuous to choose the best among them. We had to think in different directions to get a solution and if we would think a particular solution to be right, it might not be the same because there are different perspectives to see the problems. Though it was very complicated to end up with the right solution we managed to do it with the help of the faculty's knowledge and experience.

The basic English grammar class included finding 10 words ending with 'ion' and 50 words starting with 'com', it was pretty thrilling to learn all this because we never put so much strain on our brains to find out things like that. Overall we enjoyed the session thoroughly and and learnt many new concepts of dealing with different situations.

Points of discussion: Case analysis, logical ability and English grammar

Day 2 [1st December 2018]

The day started with introducing us to quantitative aptitude. We were given a set of questions to be solved which included probability, ratio and proportion, speed , time an distance, number series, numerical ability. Each question discussed were different so we didn't have that monotonous feeling during the session . the atmosphere created during the class made us feel that we were in T.I.M.E institute for that 4 hours because of the faculty , the timer attached to our tasks, and the excellent questions. The time taken to answer each questions were reduced to minutes through the short cuts and tricks taught to us. It was a successful session by helping us to understand the concepts with clarity.

They spoke about the different courses offered in T.I.M.E institute and were ready to give the best choice of course available for each student based on their interest.

There was a feedback form being circulated after the session as well.

Points of discussion: quantitative aptitude

CONCLUSION

This programme conducted on 30th November and 1st December 2018 focused mainly on strengthening student's conceptual clarity of the fundamentals of mathematics, English, reasoning.

Faculty's were energetic, friendly, calm and composed throughout the session and were open to our doubts and clarifications.

The quality of the materials or questions discussed were unique.

Through the campus training conducted in Christ college T.I.M.E trained us on the basic concepts in aptitude, logical reasoning, case analysis, English as a part of preparing us for the campus placements.

Through these sessions, we got to know the tricks for solving the questions and to improve our speed while solving.

We learnt to see the questions in different angles and finding out solutions through different methods and pick which was quicker.

This initiative taken by Christ deemed to be university was a great success and helped many students to learn, improve and to get to know about the various courses and career opportunities.

It was a very grateful hours to me with the T.I.M.E faculty and I would highly recommend this session to everyone for their improvement and it should be scheduled little early than in the month of November.

DATE : 1st March 2019
TIME : 12 pm - 1 pm
VENUE: Room 4208, Block 4
EVENT: CAT Scholarship Test by TIME - Talent Search Examination
