

Department of chemistry

Details of Fest-2019-20

1. Nature of Program: Guest Lecture through Skype

Program Level:Departmental

Title:Controlled Crystal Growth and Functional Coatings through Microfluidic Reactors

Number of participants:100

Nature of Participants: I MSc and II MSc students and faculty members of Chemistry Department

Guest/Speaker:Dr. Abhiteja Konda,

Nano Science and Technology Division, Argonne National Laboratory,
Illinois, USA

Remarks:Detailed description on Microfluidics, fabrication of microfluidic reactors and their applications were discussed. This was followed by a question-answer session.

2. Nature of Program: Career guidance through Skype

Program Level:Departmental

Title:Career Guidance and Opportunities Abroad

Number of participants:100

Nature of Participants: I MSc and II MSc students and faculty members of Chemistry Department

Guest/Speaker:Dr. Abhiteja Konda,

Nano Science and Technology Division, Argonne National Laboratory,
Illinois, USA

Remarks:Speaker gave guidance on Research and Post-doctoral Research abroad. He also highlighted on the different branches that a Chemistry post graduate student can pursue. He also mentioned the eligibility criteria for different Universities around the world and how an effective application can be written.

3. An orientation programme on competitive examinations for all the first year students of BCB, BCZ, PCM, CBZ courses was organised on 4th July 2019 from 3.00 to 4.00 pm and held at SKY View, Central Block. The resource person was Mr. Jai Prakash who is the alumnus of our Department and has cleared the JAM examination. At present he is pursuing PhD in IIT, Kharagpur. He motivated the students how to prepare for the competitive exams, list of exams that students can prepare to be placed in the renowned national and international universities, importance of internships in reputed institution even while studying etc. The students gave the feedback that the talk was inspiring and informative. There was good interaction of the participants with the speaker during and even after the programme.

4. Date: 29.01.2020

Time: 2:00 – 4:00 pm

Venue: Skyview, Central block, Bangalore Central campus.

Program Coordinator: Dr. Louis George

Nature of Program: Talk on industrial processes

Program Level: Departmental

Title: Stages of Drug discovery-Bench Side to Bed Side

Number of participants: 220

Nature of Participants: Undergraduate students (Final yearPCM, CBZ, BCB, BCZ)

Guest/Speaker: Dr. Govinda Raju, Deputy General Manager, Anthembiosciences, Bangalore

5. Alumni talk through Skype

Topic-INSIGHT ON CAREER PERSPECTIVES

Speaker

Dr. SUMAN CHAKRABARTY, Post Doctoral Researcher, University of Michigan Ann Arbor, Date: 15/02/2020, Time: 9.00 am to 10.00 am
