

Deanery of Science

September 05, 2019

TEACHERS DAY CELEBRATION Deanery of Science A teacher is a compass that activates the magnets of curiosity, knowledge and wisdom. It becomes very necessary for us to thank our teachers for whatever they have been doing for us, putting in all their efforts day and night. Hence we, on behalf of all the students, thanked our teachers from the Deanery of Sciences on 5th September. Although it becomes our responsibility to thank them every day, this is a day made for them to feel special about themselves.

The plan of making them feel special about their work was being made from the past one month. After a long brain storming about gifts and events, we made up a draft plan. We decided to collect money from the students of each and every class of Science deanery with the help of our Deanery Level Student Council members and invest it in getting few small gifts filled with gratitude to our teachers.

On 5th September with the help of our Deanery level council members, we packed the gifts: a pen which is the symbol of knowledge, a key chain with a 50 year calendar in it which will remain as a memory as time passes and a plant sapling which is a symbol of growth, health, wealth and happiness. Then all the University level members along with their deanery level members showed their gratitude by gifting the teachers personally. This was a memorable day to all of us.
