The teaching learning enhancement cell conducted a series of reviews for schools across Christ University from 1 February 2021 to 15 February 2021. As a part of CHRIST, TLEC had taken up an initiative to the curriculum documents updated on the university website. The presentation to different schools at christ was to present the reviews TLEC had done based on the syllabus and the curriculum mentioned in the website. These sessions were primarily provided the schools feedback on the existing programme and course outcomes and suggestions for improvement in the same. In the interactive parts of the session faculty was also encouraged to share ways in which they

would work towards aligning the programme outcomes and course outcomes with pedagogy and assessment, and reflect these on their webpages as well.
