

Department of Chemistry

Policy on Placements

1. All post graduate students are encouraged to take up a job or research. Under graduate students are generally guided for higher studies.
2. Reputed industries/institutes are invited for placement sessions.
3. Guidance and recommendation letters are provided by the department to achieve these objectives.
4. The placement committee strictly enforces one student one job offer policy.
5. It is not mandatory for a candidate to participate in any placement drive if they choose not to.
