CHRIST (Deemed to be University), BENGALURU
DEPARTMENTS OF COMPUTER SCIENCE AND STATISTICS
WOMEN IN RESEARCH AND IT CELL

DATE: 7th MARCH 2020

VENUE: Assembly Hall, Block II CHRIST (Deemed to be University)

THEME: WOMEN IN RESEARCH

The Women in Research and IT cell (WRIT cell), an association of Departments of Computer Science and Statistics organized a guest talk on Women in Research and IT. The guest speaker was Ms. Meghana Sudhindra, Senior AI Engineer, MSc Group Software Systems and India Private Limited.

Ms. Meghana Sudhindra emphasized the importance of research and the opportunities open for students to get into research. She highlighted various research contributions by Women researchers in India. She motivated the students and urged them on how they can contribute to society by means of research. She enlightened the young minds by briefing about how she became an Artificial Intelligence (AI) researcher. She also explained her research experience and urged the students to chase their passion.

Women have been in continuous efforts to promote health, education, environmental sustainability programs. Research being a field that requires a lot of time and dedication however there are great women researchers in India who contributed to the society through their research irrespective of their family responsibilities. The session was very interactive and informative.
