

# DEPARTMENT OF LIFE SCIENCES

CHRIST (Deemed to be University)

## POLICY OF THE DEPARTMENT TO PROMOTE RESEARCH & DEVELOPMENT

The Department of Life Sciences follows the following policies for promoting international standards in research and development:

Sl.No	R & D Promotion factors	Reasons for having such policy parameters
1	Encourage the faculty members to start doing research and apply for the internal funding from the Christ (Deemed to be University)	The policy helps most of the faculty members to initiate the research culture and to meet up the requirements for doing research internal funding will be beneficial.
2	Encourage the faculty members to write projects for the external funding	The policy helps in developing the infrastructure of the department and also promotes the research culture.
3	Encourage the faculty members to publish in the peer reviewed journals (UGC recognised, Scopus etc)	Department felt the need to improve on the research parameter.
4	Faculty -student collaborative project	The policy helps the students in having a feel of the research in their UG program. Some of the projects have been published.
5	Encourage the faculty and students to attend and present the research outcomes in the conferences/seminars organised by various institutes	This helps both students and faculty members to showcase the outcomes of their research and also helps them to acquire the recent trends in the specific research areas.
