

Department of Chemistry

Research Promotion Policies

- ❖ High research caliber faculty will be given higher preference during recruitments.
- ❖ Financial support scheme for research through seed money will be made available from the institution till a new faculty member settles down in the job.
- ❖ Financial support scheme for International and National conferences will be made available to encourage faculty/research scholars to take part and benefit from them.
- ❖ Post-doctoral fellowship schemes are made available to deserving candidates from both the existing research scholars as well as newly recruited faculty.
- ❖ Research Newsletter is published periodically to give better visibility for the research work done carried by the faculty members.
