

School of Law Student Council Members

July 26, 2019

The Orientation Program of the Deanery Student Council Members of School of Law CHRIST was conducted on 26th July 2019, at the Kengeri Campus of CHRIST (Deemed to be University). The day started with a short prayer, following which a few ice breaking activities were conducted to facilitate interaction amongst the Deanery Student Council Members. The main purpose of the afore mentioned activities was to provide a congenial and informal environment for the students to get to know each other better. The program also featured many thought provoking discussions during which students raised concerns and made suggestions on various issues.

The issues discussed ranged from the need to improve general security measures on campus, to the need for internship programs and summer school collaborations with Foreign Universities. After detailed deliberation the students were shown a Ted talk on the concept of 'ideal leadership', which gave them insight in to the role of a leader. The students discussed how a leader is not merely meant to be an autocratic figure, but should strive towards building a fiduciary relationship with his team. While discussing these ideas on the role of a 'leader', the students initiated a discussion on the role of the Student Council in Law School and discussed measures to improve the relationship between the Student Body and the Council.

The members were then asked to present on certain topics which had been assigned to them beforehand. Included among the topics were: Daksh, Teachers Day, Gratitude Week, mechanisms to include student perspectives on various aspects of campus life etc. The students were also given specific sub-committees to work under, in order to ensure the smooth functioning of all the council activities planned for the year. In conclusion, the Orientation Program was a fitting way for the Law School Deanery Council to start the Academic Year.
