

WMU MBA PROGRAM

"I would recommend enrolling in the MBA program, which I can promise will shape your professional and personal life in very positive ways."

"My life changed very positively with the decision I made to join the WMU program. I acquired a lot of knowledge from different perspectives and international exposure. I cherish my learning experience with highly supportive professors and also the infrastructure of support provided by Western Michigan University. I graduated and obtained a position at a reputed company as an IT-ERP support specialist. I would recommend enrolling in the MBA program, which I can promise will shape your professional and personal life in very positive ways."

- Rohini Sunil Ganga Rani

"As I progressed through the MBA dual degree program, I felt I wasn't just an MBA graduate from two universities anymore but an individual with rich intercultural, diversified knowledge. I gained exposure to international platforms and students from all over the globe. My choice to enter the program was right and helped me answer many questions. I hope it is your right choice too."

- Thenappan Kannan

"The varied cultural backgrounds of students at WMU gave me experience with how different business situations could be approached by different people and cultures. On-campus activities gave me the opportunity to understand people in the best possible way. The unity among people from various backgrounds taught me the impact of teamwork and collaboration. WMU offered me the freedom to study courses of my own interest. The education system is more personalized compared to the standard system where the courses for different concentrations are fixed."

- Nikshep Ramesh
