FACULTY OF ENGINEERING
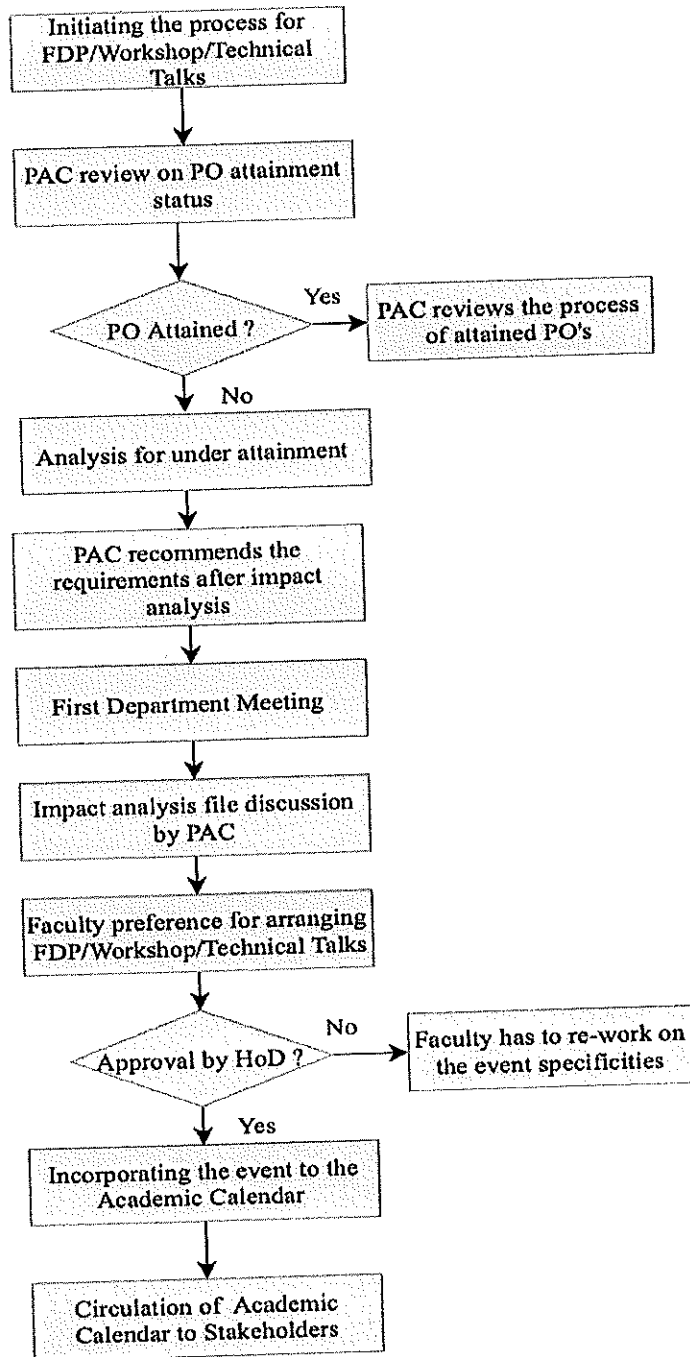

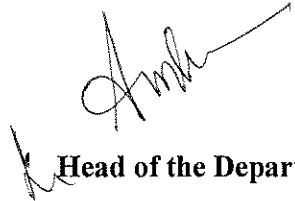

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Policy Document - Value Added Courses in collaboration with Industries

Figure: Flowchart representation of the policies that are framed to govern the process of Workshops, FDP and Technical Talks.

The process for arraigning Value added courses are as given below:

1. The process for arranging Value added courses begins as soon as the PO attainment document is made available.
2. Based on the document, the Program Advisory Committee (PAC) reviews the PO attainment status.
3. If the targeted PO is attained the committee would resist the process of attainment of PO's.
4. If there is under attainment of PO's, an analysis would be done to identify the areas and relevant subjects where the targeted PO is not attained.
5. During the first department meeting the recommendations by PAC regarding the Value added courses are discussed.
6. Based on the impact analysis file the faculties are allowed to given their preferences to arrange for the Value added courses.
7. Upon the approval of HOD the Value added courses would be arranged beginning with incorporation of the event in the Academic Calendar and later circulation of the same to the stakeholders.
