Curriculum feedback analysis for the academic year 2018 - 2019

Student feedback on curriculum consisted of the following suggestions: include pre-learning topics wherever required which would help them to understand the topics taught in a better way. Suggested the inclusion of elective courses useful for better employability. Post graduate students suggested updation of topics in Medicinal Chemistry and Research Methodology. To add a few application oriented and CSIR relevant topics. Alumni feedback suggested a few changes in the course Molecules of Life specially related to concepts of energy in biosystems.

Action taken:

Based on the student and alumni feedback the syllabus was modified suitably to incorporate most of the relevant changes asked for which is highlighted in the curriculum.
