Date – 26/09/2022

Event: Flavors of Kengeri

Report:

CAPS, sent out a mail on 30th October 2021, to all the students of Christ Kengeri. The mail included the content regarding “home-cooked nutritious meal recipes,” for all the students living on their own.

The initiative started with a means to help the students moving from different parts of the country and abroad to Bangalore as they embark on the journey of pursuing their higher studies.

Considering that this would be the first time these students will be living on their own, CAPS decided to send out a mail with a quick recipe for the “ultimate gravy,” with detailed instructions on the ingredients used as well as taking you through every stage of the recipe.

This was later followed by the students and the faculty bringing in their favorite recipes as well as tips and tricks on cooking.

This resulted with a compilation of recipes from various cuisines.
