1	Placements can be improved	More connections established with companies for placements. Contacted Alumni for placements opportunities
2	More placements options from grass root organizations could be brought in.	Working on more connections
3	Having a list of good organizations for internships. That would enhance the internship experience of students since these would be tried and tested; To have resource persons from different sectors of work come in for interactive; Mentors and research mentors do not have to be the same person. Many of us had difficulty because of that arrangement.	List of internship organizations are identified.

Alumni Comments/Suggestions and Actions Taken

Sl. No	Comments/Suggestions MSW HRDM	Actions Taken
1	Should include more management papers	Included Strategic Management
2	I am really happy and satisfied to be a part of CU	
3	A little more emphasis should be given towards the placement of the students.	Trying to connect more industries
4	Can make internship of last semester at the end after examination	It is adjusted at the end of the semester before exam.
5	I am quite satisfied with the curriculum	
6	Should schedule departmental activities and programs by the way that students can also attend other activities happening in the University.	Programs are organizing accordingly.

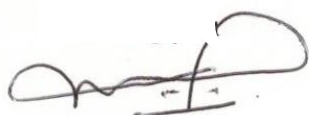

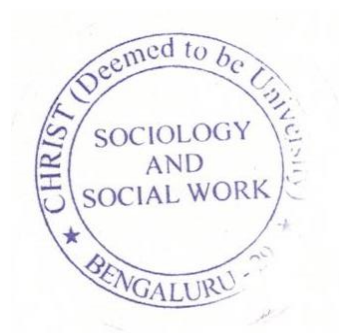

7	There have been a lot of areas where improvement is sought after. Quite a few have been suggested in the Board of Studies Meeting.	Now students are also involved in BoS Meeting
8	Instead of 4 different internship college can encourage to do 1 internship to increase better employment chances	Students get more exposure by working in different organization.
9	More support and assistance should be provided for Internships.	
10	It would be great if better support is provided for internships	Support has given to the students who are seeking support.

Sl. No	General Comments/ Suggestions
1	There's a lot of weightage on attending classes which are not engaging and it gets very monotonous after a point
2	The course need to be planned in a better way so that students have the opportunity to get employed. Instead of Keeping 4 Internship 2 internship can be kept, one in 1st or 2nd semester and one in the final semester with long duration, this will increase the chances of students getting PPO.
3	It would be great if the semesters are little more relaxing, like they were too hectic and also the research should be starting from second year of the program rather than the first year because we are not familiarised with the topics in the first year
4	Very informative papers and useful for our daily lives as well
5	Good experience
6	Being MSW students, HR students should be given the opportunity to learn more about CSR (2 sems)
7	Should include more internships.
8	The Internship period should consolidated in 6 months and shifted to the last semester that might form a possibility for the students to get placed where they are interning.

Sl. No	General Comments/ Suggestions
1	The curriculum can be more advanced and on a masters level
2	Need to improve the curriculum in terms of advanced level
3	It is necessary to include more classes about laws
4	The curriculum should be updated
5	Few of the subjects can be applied in early semester rather than last semester
6	More classes on research methodology
7	The subjects of specialization should be taken in detail and not on the surface level as this course will help us to gain great in-depth knowledge related to both Clinical and Community practice.
8	Need to improve curriculum. Need to teach us more software that are applicable in outside world.
9	Fourth semesters paper should be shifted to 3rd semesters especially paper like CSR and clinical Social work
10	CHRIST is the only college that provides a combination with Clinical and community practice... which is a great positive however there is repetition of content in the curriculum.
11	Workload can be minimised and more practical experiences can be promoted
12	Curriculum should be more specific for specialized area
13	Repetitive topics and papers have to be eliminated.
14	Some topics like CSR is necessary to be included in 2-3 rd semester as it affects placements. Skill lab to be updated Disaster management and Refugee topics to be included
15	Curriculum needs to be updated so that we could Orient more towards jobs and other research opportunities
16	The theories and skills that we learn in the classroom are not updated much when it's compared to the real world
17	The specialization of Community and Clinical together is really relevant and good. However more practical papers and classes should be conducted. And also alot of unwanted classes must be taken of such as journal club.
18	The course has a lot of things and yet lacks important parts for being employment ready
19	Jack of all trades is mater of none. The course is too overburdened with surface level information of too many subject but specialization in none. No time to actually study or dwell into subject matter ourselves because of the overburdening which ultimately only reduces productivity
20	Repetitive papers has to be eliminated. Skill lab has to be made

21	Given in class
22	Skill labs can include some computer skills
23	A more comprehensive and detailed curriculum would be better suited.
24	Curriculum is repetitive in several subjects... there is need for more practical practice
25	Teaching more softwares and tools that are needed for present corporate and organisations.
26	Update the curriculum as per industry needs
27	It's great experience for me
28	Could be a little more practical oriented and increase the subjects focusing on community setting
29	Need to go little deeper into the subjects
30	Need to provide better community development courses
