

### **SIP Viva -2025-2026**

The Summer Internship Viva Voce for MBA students was conducted on 28 June 2025. The purpose of this session was to assess students' learning and outcomes from their Summer Internship Projects (SIP), which form a crucial part of the MBA curriculum. This year, a unique and enriching feature was added by involving MBA alumni as judges for the Viva sessions. These alumni, now experienced professionals in their respective industries, brought valuable insights and practical perspectives to the evaluation process.

The SIP Viva was a resounding success, fostering academic-industry integration and alumni involvement. The initiative was well-received by both students and judges, enhancing the learning experience and encouraging continuous improvement in internship engagements.
