CURRICULUM FEEDBACK ANALYSIS REPORT
ACADEMIC YEAR 2025-26

1. Introduction

Feedback is crucial in determining if the chosen approach is effective in reaching the established goals. In the process of designing, developing, and revising curricula, feedback is essential for achieving the intended outcomes. Stakeholders should have input on the desired results at the conclusion of a course or program, which is a key aspect of outcome-based education. CHRIST (Deemed to be University) has implemented a comprehensive 360-degree feedback system involving various stakeholders such as students, alumni, employers, industry and academic experts, parents and others. This approach goes beyond merely collecting feedback; it also involves a thorough analysis to identify areas for improvement, potential new programs, and the effectiveness of ongoing revisions. Based on the findings, strategies are developed to create appropriate action plans for enhancement in subsequent academic years. The university continuously strives to ensure that all programs' curricula are up-to-date, preparing students for a well-rounded future in today's competitive world.

CHRIST (Deemed to be University) has implemented a policy requiring all departments to gather feedback on their curricula. This analytical report provides a detailed examination of the School of Business and Management, including the feedback collected, the nature of the responses, areas for improvement, and actions taken as a result of the analysis. The report first presents the number of responses gathered for the BBA, then delves into the nature of the responses and the stakeholders' opinions regarding the current curriculum. The final section of the report addresses the actions taken in response to the feedback received during the 2025-26 academic year, as well as the plans initiated for the upcoming 2026-27 academic year.

2. 360-Degree Structured Feedback

As has been a practice, the University Internal Quality Assurance Cell (IQAC) provides feedback forms from the following stakeholders: Students, Teachers, Employers, Alumni, Academic Peers, Entrepreneurs.

The questionnaire has been carefully designed to consider the programs provided by the School of Business and Management, taking into account all aspects necessary for regular curriculum revisions and the introduction of new courses and programs across departments. The survey distributed to various stakeholders can be found below

2.1 Feedback Form for Students

The feedback forms utilize a 5-point scale, with 5 being the highest score and 1 being the lowest. The student feedback questionnaire helps determine if the established curriculum aligns with outcome-based education principles, fosters a research-oriented mindset among students, and encourages curiosity and a lifelong learning attitude. These factors contribute to the department's mission fulfillment, ultimately leading to the realization of its vision. The questionnaire provided to students can be found in Table 2.1 below.
