Synopsis of Activity

Highlights of the Activity	<ul style="list-style-type: none">• Active contribution from all EMS undergraduate and MSc mathematics classes.• Collective departmental effort aligning with SDG 2 (Zero Hunger) and SDG 12 (Responsible Consumption and Production).• Volunteer support from students and faculty ensured smooth logistics.
Key Takeaways	<ul style="list-style-type: none">• Promoted values of empathy and civic responsibility.• Strengthened student understanding of food insecurity and waste reduction.• Reinforced the role of small-scale collective efforts in addressing large social challenges.
Summary of the Activity	<p>The SDG Cell of the Department of Mathematics led a food donation drive in support of <i>A Handful of Food</i>, an initiative dedicated to combating hunger and reducing food waste. The campaign received wholehearted contributions from students of 1EMS, 2EMS, 3EMS, 1MSc Mathematics, 2MSc Mathematics, as well as the faculty members of the department.</p> <p>Food items were collected between 23rd and 28th June 2025. Donation boxes were placed in each participating classroom, where students deposited non-perishable food items. At the end of each day, class volunteers consolidated the donations and transferred them to a central collection box in the Mathematics Department. On 28th June, SDG Cell</p>

	<p>coordinators, along with student volunteers from the EMS classes, helped transport the collected food items to the Department of Hotel Management in Block IV, where they were handed over for distribution.</p> <p>This initiative embodied the spirit of community-driven action and directly supported SDG 2 (Zero Hunger) by aiding those in need. Its success was made possible through the enthusiastic involvement of students and the thoughtful coordination by the SDG Cell. The drive stands as a strong reflection of the department's dedication to social responsibility and sustainable impact.</p>

A Handful of Food Initiative – Summary

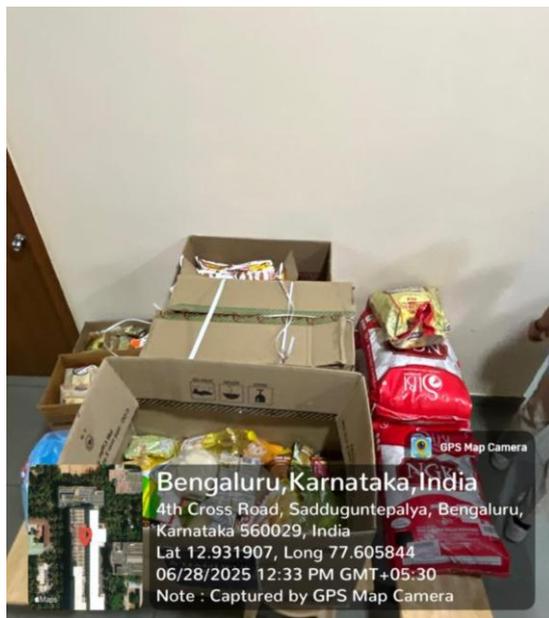

From 23rd to 28th June 2025, the SDG Cell of the Department of Mathematics organized a food donation drive in support of *A Handful of Food*, an initiative dedicated to addressing hunger and minimizing food waste. The drive witnessed generous participation from students of 1EMS, 2EMS, 3EMS, 1MSc Mathematics, 2MSc Mathematics, along with active support from the department's faculty.

Donation boxes were placed in each classroom, where students contributed non-perishable food items throughout the week. At the end of each day, class volunteers transferred the donations to a central collection point in the Mathematics Department. On 28th June, SDG Cell coordinators, accompanied by student volunteers from EMS classes, transported all collected items to the Department of Hotel Management, Block IV, for final handover to the *A Handful of Food* team.

This initiative exemplified the department's commitment to social responsibility and community engagement. By aligning with SDG 2 (Zero Hunger), the drive not only provided tangible support to those in need but also instilled in students a deeper awareness of sustainable consumption and civic action.

Impact Analysis

The food donation drive led by the SDG Cell had a significant impact on both the beneficiaries and the contributors. Essential food items such as aata (wheat flour), rice, masala packets, cooking oil, and other non-perishables were generously donated, directly supporting the nutritional needs of underserved communities.

Beyond the material contributions, the drive helped students become more conscious of issues like food insecurity, waste reduction, and sustainable consumption. The hands-on experience of collecting and delivering food fostered a strong sense of solidarity, empathy, and civic engagement among participants.

With active involvement from all EMS and MSc Mathematics classes, along with faculty support, the initiative promoted values of compassion and generosity. It also reinforced Christ University's continued commitment to the United Nations Sustainable Development Goals, particularly SDG 2 (Zero Hunger) and SDG 12 (Responsible Consumption and Production).

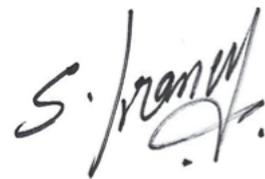

Attendance

Students from 1EMS, 2EMS, 3EMS, 1MSc Mathematics, 2MSc Mathematics, and faculty members.
