CHRIST
(DEEMED TO BE UNIVERSITY)
DELHI-NCR, INDIA

EVENT REPORT

Ph.D Inauguration and Orientation

for

December 2024 Batch

Organized By

Centre for Research, CHRIST (Deemed to be University), Delhi NCR Campus

(10, 11 & 12 January 2025)

Venue: Discussion Room, 2nd floor, A Block.

GENERAL INFORMATION

Type of Activity	Inauguration and Orientation
Title of the Activity	Inauguration and Orientation of the December 2024 Ph.D. Batch
Date/s	10, 11 & 12 January 2025
Time	11:15 AM
Venue	Discussion Room, 2nd Floor, A Block.
Collaboration/Sponsor (if any)	
Mode	Offline

SPEAKER/GUEST DETAILS

	Day 1 Speaker 1 (Chief Guest)	
	Name	 **Dr. Fr. Peter MV**
	Title/Position	Campus Administrator
	Organization	CHRIST (Deemed to be University), Delhi NCR Campus.
	Title of Presentation	Inaugural Address and Newsletter release by Campus Administrator.

	Speaker 2	
	Name	 **Dr. Jeanne Paulose**
	Title/Position	Dean
	Organization	Associate Professor, School Of Business and Management CHRIST (Deemed to be University), Delhi NCR, Campus.
	Title of Presentation	Speech by Dean
	Speaker 3	
	Name	 **Mr. Siddharth Dubey**
	Title/Position	Asst. Professor

	Organization	CHRIST (Deemed to be University) Delhi NCR Campus
	Title of Presentation	Ice breaking and senior interaction session
	Speaker 4	
	Name	 **Ms. Anu Varghese**
	Title/Position	Asst. Professor
	Organization	CHRIST (Deemed to be University) Delhi NCR Campus
	Title of Presentation	Ice breaking and senior interaction session
	Speaker 5	
	Name	 **Dr Kusum Latha**

	Title/Position	Assistant professor, NCR Campus
	Organization	CHRIST (Deemed to be University) Delhi NCR Campus
	Title of Presentation	Ethics in research
	Speaker 6	
	Name	 **Dr. Varuna Gupta**
	Title/Position	Assistant Professor
	Organization	CHRIST (Deemed to be University) Delhi NCR CAMPUS
	Title of Presentation	Research Tools: Planning Research tools and ROL
	Speaker 7	
	Name	

		Dr. Shoney Sebastian
	Title/Position	Director Centre for Research
	Organization	CHRIST (Deemed to be University) Bangalore Campus
	Title of Presentation	Impactful Research - University Perspective by Director, Centre for Research
	Speaker 8	
	Name	 **Dr. Riya Baby**
	Title/Position	PhD Coordinator, CHRIST NCR Campus
	Organization	CHRIST (Deemed to be University) Delhi NCR Campus
	Title of Presentation	General Orientation by PhD Coordinator
	Session Wise Details	
	Day 2 Session I	

	Name	 **Dr. Sreelatha**
	Title/Position	Asst. professor
	Organization	CHRIST (Deemed to be University) Delhi NCR Campus
	Title of Presentation	Psychological Well-being
	Session II	
	Name	 **Dr. Tanupriya**
	Title/Position	Asst. Professor
	Organization	CHRIST (Deemed to be University) Delhi NCR Campus

	Title of Presentation	Research Writing
	Session III	
	Name	 **Dr. Sneha Saha**
	Title/Position	Asst. Professor
	Organization	CHRIST (Deemed to be University) Delhi NCR Campus
	Title of Presentation	Research Designs
	Session IV	
	Name	 **Dr. Ramesh Chandra Poonia**
	Title/Position	Professor

	Organization	CHRIST (Deemed to be University) Delhi NCR Campus
	Title of Presentation	Introduction to Research Publication, Patent, and Copyrights.
	Session VI	
	Name	 **Dr. Aneesh K A**
	Title/Position	Assistant Professor
	Organization	CHRIST (Deemed to be University) Delhi NCR Campus
	Title of Presentation	Interdisciplinary Research
	Session VII	
	Name	 Mr Denish Sebastian

	Title/Position	Librarian
	Organization	CHRIST (Deemed to be University) Delhi NCR Campus
	Title of Presentation	Library Resources
	Day 3 **Asynchronous assignment**	

PARTICIPANTS' PROFILE

Type of Participants	Ph.D Scholars of Delhi NCR Campus
No. of Participants	17

SYNOPSIS OF THE ACTIVITY (DESCRIPTION)

Summary of the Activity: **Date – 10/01/2025** **09.30 AM – 10.15 AM** **Emcee:** **Report Writing:** Ms. Ansella Anna Thomas **Vote of Thanks:**	**Day 1** **Inaugural Session and Newsletter Release** The Session began by invoking the blessings of the almighty. The emcee welcomed dignitaries and participants to the orientation and inauguration of Ph.D scholars of the 2024 December cohort and invited Dr. Fr. Peter MV, Campus Administrator, NCR Campus, to welcome the scholars to our campus. **Dr. Fr. Peter MV , Campus Administrator, CHRIST (Deemed to be University), Delhi NCR Campus.** Father, talked about how Ph.D. is more than an academic achievement; it's a milestone in a scholar's journey. Starting as a student with a goal, one emerges as an expert in their field. The Ph.D. signifies not just a title, but also leadership in specialized areas of research and knowledge creation. It involves critical thinking, research skills, and effective communication, shaping future researchers and experts who contribute to academia and beyond. He also talked about various stages in research like research proposal preparation, literature review, data collection, and thesis defense, culminating in a meaningful contribution to the chosen field. **Dr. Jeanne Paulose, Professor, School Of Business and Management**

	CHRIST (Deemed to be University), Delhi NCR, Campus. Ma'am talked about PhD as a scholar's gateway to deep research. It equips them with expertise, transforming them from knowledge consumers to producers. Through rigorous study and original research, they become authorities in a specific area. This journey hones critical thinking, problem-solving, and communication skills. She also emphasized that it not only opens doors to academic careers, research positions, and leadership roles but also allows them to shape the future of their field. **Mr. Siddharth Dubey & Ms. Anu Varghese Asst. Professor, CHRIST (Deemed to be University) Delhi NCR Campus** Sir started the session with Engaging activities and structured Q&A ,which effectively dissolved the initial awkwardness and established a comfortable atmosphere for the free flow of information. Senior scholars shared their experiences, providing valuable insights and anecdotes gleaned from their own doctoral journeys, this fostered a platform for knowledge transfer, where junior scholars can pose targeted questions and gain practical advice on navigating potential research roadblocks, faculty interactions, and the intricacies of thesis committee dynamics. this session provided a sense of collegiality within the doctoral cohort and can serve as a springboard for potential research collaborations. **Dr. Kusum Lata, Assistant Professor, Delhi NCR Campus.** Ma'am talked about how Ethical conduct is the bedrock of trustworthy research. It ensures research is conducted with respect for all involved. A core principle is informed consent: participants must freely choose to participate and understand the potential risks and benefits. When dealing with human subjects, anonymity and confidentiality of data are paramount. Also, Dr. Kusum Lata emphasized that Researchers must be honest in reporting methods, results, and authorship. Overall, research ethics ensure the integrity of the research process, protect participants, and foster public trust in research findings. **Dr. Varuna Gupta, Asst. Professor, CHRIST (Deemed to be University) Delhi NCR Campus.** Ma'am talked about how strong research requires a well-stocked toolbox. Planning is key to identifying your research question and methodology (surveys, interviews, etc.). This guides the scholar's tool selection. For quantitative data, statistical software helps analyze surveys. Qualitative research might use coding software to organize interview transcripts. Ma'am emphasized that a thorough Review of Literature (ROL) is another crucial tool. It identifies existing research, potential gaps, and relevant theories, ensuring your work builds upon established knowledge. **Dr Riya Baby, Coordinator, Research Cell, Delhi NCR Campus.**

	Ma'am welcomed all the new scholars into the academic fold. She provided an overview of resources and support services, outlining program structure and expectations. This session covered essential topics like research ethics, thesis formatting, common procedures, and navigating university systems. This comprehensive introduction equipped new scholars with the knowledge and connections to embark on their successful doctoral journeys. **Dr. Shoney Sebastian, Director, Centre for Research, CHRIST (Deemed to be University) BANGALORE CAMPUS** Sir talked about the transformative experience for a scholar and how a Ph.D fosters in-depth expertise, turning the scholar from a knowledge consumer into an independent researcher. Through rigorous coursework and original research, they become authorities in a specific field, honing critical thinking, problem-solving, and communication skills. This credential unlocks doors to prestigious academic careers, research positions, and leadership roles, allowing them to shape the future of their chosen discipline. Sir also highlighted that the path to a doctorate is demanding. It requires significant time commitment, often with long hours dedicated to research, writing, and analysis. Financial pressures can also be a concern, with limited funding opportunities and potential delays in career progression. Additionally, the isolation inherent in independent research can lead to stress and feelings of self-doubt. Despite these challenges, for a truly passionate scholar, the intellectual pursuit, personal growth, and potential to make a significant contribution to their field can make a PhD a worthwhile endeavor.

Summary of the Activity: **Date – 11/01/2025** **09:15 AM – 10.15 PM**	**Session I** **Prof. Sreelatha, Asst. Professor, CHRIST (Deemed to be University) Delhi NCR Campus.** **Topic – Psychological Well-being** Ma'am talked about how PhD programs, while intellectually stimulating, can be a breeding ground for psychological challenges. The intense pressure to publish, tight deadlines, and the often-isolated nature of research can lead to stress, anxiety, and even depression. Feelings of inadequacy and self-doubt can arise when facing setbacks or comparing oneself to peers. However, she emphasized that several strategies can promote well-being during a PhD. Time management is crucial to avoid burnout. Prioritizing tasks, setting realistic goals, and scheduling breaks can help maintain a healthy balance. Building a strong support network, including mentors, colleagues, and friends, provides a space to vent frustrations and celebrate successes. Additionally, self-care practices like exercise, healthy eating, and mindfulness techniques can significantly boost mood and manage stress. Recognizing the warning signs of mental health issues and seeking professional help when needed is vital for navigating the emotional rollercoaster of a PhD journey.
Summary of the Activity: **Date – 11/01/2025** **10:15 am – 11:15 am**	**Session II** **Dr. Tanupriya, Asst. Professor, CHRIST (Deemed to be University) Delhi NCR Campus.** **Topic - Research Writing** The session began by asking a very fundamental question about research writing to all the scholars. Subsequently, it was highlighted that Research writing in a PhD program is a demanding but rewarding skill. It requires mastering a distinct academic style characterized by clear, concise, and objective language. Effective research writing hinges on strong source integration. Dr. Tanupriya also talked about Citations and references done meticulously to document borrowed ideas and evidence, ensuring academic integrity. The structure of a PhD thesis or dissertation follows a specific format, typically outlining the research question, relevant literature, methodology, findings, and discussion.

Summary of the Activity: **Date – 11/01/2025** **11:15 am – 12:15 pm**	**Session III** **Dr. Sneha Saha, Asst. Professor, CHRIST (Deemed to be University) Delhi NCR Campus.** **Topic - Research Designs** Mam started the session by explaining the research design and its importance in serving as a roadmap for a scholar's dissertation. It outlines the strategy to answer the scholar's research question. It involves choosing a research method (qualitative, quantitative, or mixed) that aligns with research goals. Ma'am also talked about defining variables, determining how data will be collected (surveys, interviews, experiments), and establishing a plan for data analysis. She emphasized that well-crafted design ensures your research is objective rigorous, and delivers reliable findings that contribute to the scholar's field of study.
Summary of the Activity: **Date – 11/01/2025** **12:15 pm – 1:15 pm**	**Session IV** **Dr. Ramesh Chandra Poonia, Asst. Professor, CHRIST (Deemed to be University) Delhi NCR Campus.** **Topic - Introduction to Research Publication, Patent, and Copyrights** Dr. Poonia, in his address, highlighted that PhD scholar, during their research, is primed for dissemination and impact. Understanding intellectual property (IP) is key. Publications in peer-reviewed journals have the objective of sharing their findings with the academic community. Patents grant exclusive rights to novel inventions. Copyrights protect original creative works like your thesis. Choosing the right avenue depends on the scholar's research; publishing is for knowledge sharing, patent for commercialization, and copyright for creative expression, which is the central idea behind this.
Summary of the Activity: **Date – 11/01/2025** **2:15 pm – 3:15 pm**	**Session V** **Dr. Aneesh K A, Assistant Professor, CHRIST (Deemed to be University) Delhi NCR Campus** **Topic – Interdisciplinary Research** Sir started the session by highlighting that interdisciplinary research breaks down siloed thinking. This type of research draws upon knowledge and methodologies from multiple disciplines to tackle complex problems. Sir gave the example of a biologist collaborating with an engineer to create a new biomaterial or a sociologist working with a computer scientist to analyze social media trends. Interdisciplinary research fosters innovation,

	leading to fresh perspectives and solutions that wouldn't be possible within a single field. However, sir emphasized that strong communication and collaboration skills are required to bridge disciplinary divides.
Summary of the Activity: **Date – 11/01/2025** **3:15 pm – 4:15 pm**	**Session VI** **Mr Denish Sebastian, Head Librarian,** **Dr. Kamal Upreti, Associate Professor, CHRIST (Deemed to be University) Delhi NCR Campus** **Topic – Library Resources** Sir explained the university Subscription databases, which offer access to millions of scholarly articles, journals, and books relevant to their research. How Librarians, subject-matter experts, can guide scholars through complex searches and navigate online resources. The library also provides citation management tools and computer resources for research, ensuring proper referencing and a polished final product.
Key Takeaways	1. **Program Duration and Expectations:** The sessions emphasized that PhD programs are known for their deep research dives, typically taking 4-6 years to complete. This can vary depending on the field and your progress. Expecting a shift from classroom learning to independent research is quite natural. Though there will be a supervisor, initiative and critical thinking are key. The journey culminates in a dissertation, a substantial document showcasing your original research contribution. 2. **Coursework:** Speakers highlighted that PhD coursework is intense but brief, focusing on advanced topics within your field. It lasts for 6 months, preparing scholars for independent research. Courses might explore research methodologies, delve into specific subfields, or

	provide practical skills like data analysis. They're not the main focus, though. The goal is to equip the scholars with the knowledge and tools to tackle unique research problems. **3. Research Supervision:** The need to align the thought process with the supervisor is critical in a Ph.D. The supervisor guides the scholar through the entire process, from shaping the research question to crafting the dissertation. Regular meetings with him for feedback, advice, and troubleshooting are expected. A good supervisor is an expert in the scholar's field, offering valuable insights and challenging the scholar to think critically. They'll also be the scholar's champion, advocating for their work and celebrating their successes. **4. Ethical Research Conduct:** The sessions also highlighted that conducting ethical research is vital in a PhD. This means protecting participants (if any) by ensuring informed consent and minimizing harm. Honesty is paramount; hence, reporting data accurately and avoiding plagiarism is critical. The scholar should be transparent about conflicts of interest and objectives in his approach. Following these principles safeguards the integrity of his research and builds trust in his field. **5. Support Services:** Discussions were made regarding the University offering a range of resources to support the scholars in their PhD journey. Libraries provide access to vast academic databases and research materials. Writing centers can help refine their dissertation and publications. Tech support assists with complex software or data analysis tools. Career centers offer guidance on academic or non-academic

	careers after your PhD. Mental health resources can help manage stress and the pressures of doctoral research. **6. Time Management:** The program stressed how the PhD program demands juggling research, coursework, and personal life. Time management becomes a vital skill. Successful PhD students prioritize tasks set realistic goals and deadlines. They utilize daily planning and scheduling techniques, often in short bursts, to maximize focus. Batching similar tasks like emails or data analysis saves time. Most importantly, it is crucial to schedule breaks and prioritize well-being, knowing that a burnt-out mind hinders progress. Also, the session emphasized the requirement to complete the Ph.D within three years and promised to provide all support in order to achieve that.
Summary of the Activity	Research Cell, CHRIST (Deemed to be University), Delhi NCR Campus Organised Ph.D inauguration and orientation for the June 2024th batch. The program started with an inaugural address by Dr. Fr. Peter MV In his address, he welcomed the newly inducted PhD scholars to our campus. It was followed by a newsletter released by Dr. Fr. Peter MV, Dr. Jeanne Paulose, and Dr. Riya Baby. In his address, Fr. Peter emphasised the importance of embarking on this journey independently witha lot of introspection, insight, and experience gained while going through this program. After this session, the orientation lasted for two more days which different faculty members from different departments of the Delhi NCR campus engaged the PhD scholars on different aspects of research, followed by an asynchronous assignment for the scholars on the last day to gauge the learnings they have acquired during this program.

Follow-up plan	1. The scholars are advised to connect with their potential supervisors to discuss their research interests in more detail. Brainstorm potential topics that align with their passion and their expertise. Together, establish clear expectations and timelines for getting their research journey started. 2. Refining the research proposal is crucial. Conduct a thorough literature review to identify existing research and potential knowledge gaps. Develop a clear research question and outline the methodology you'll use to address it. A refined proposal will be a valuable roadmap for the scholar's research. 3. Research funding opportunities offered by the university, government agencies, or private foundations can significantly support scholar's work. Identifying scholarships, grants, or fellowships that align with their research topic and preparing application materials well in advance of their deadlines is expected. 4. Coursework also plays a crucial role. Identifying PhD courses that complement their research interests and strengthen their skills is imperative. Hence, the scholars are advised to prioritize courses that address research methodology, data analysis, and specialized knowledge within their field. Discussing course selections with their potential supervisors ensures they align with their research goals. 5. Familiarizing with the university's resources is crucial. Hence scholars were mandated to explore the library's academic databases and research materials. Utilize writing centers or workshops to hone their academic writing and research communication skills. Discover relevant software or data analysis tools and seek training or support if needed. To seek career services for post-PhD goals, whether academic or non-academic. By leveraging these resources, it is expected that they will be well-equipped to navigate through their PhD journey.

Report prepared by: Ms. Ansella Anna Thomas

Name of the Organiser	Center for Research, CHRIST (Deemed to be University) Delhi NCR.
Designation/Title	Research Assistant

ANNEXURES

POSTER OF THE EVENT

.

SPEAKER PROFILE

1. **Dr. Fr. Peter MV**

Dr. (Fr) Peter MV is a distinguished member of the religious congregation of Catholic priests known as the Carmelites of Mary Immaculate (CMI). Dr. Peter M. V., an Assistant Professor with qualifications including BEd, MEd, MA, MPhil, and PhD, is a distinguished academician with expertise in education research, teacher training, and reflective learning. He has published extensively in renowned journals, including studies on real estate decision-making, robotics education, and empowered learning. Dr. Peter has contributed to books on digital education and educational policy responses to the COVID-19 pandemic and has supervised MPhil and PhD research, with one awarded in 2024. Recognized for his contributions, he has received the United Board Fellows Program certification and completed the EdLEAP: Education Leaders' Programme at IIM Calcutta. His achievements and commitment to academic excellence make him a leader in the field of education research and pedagogy.

2. **Dr. Jeanne Paulose**

Dr. Jeanne Paulose, M.T., an accomplished academician and Associate Professor, holds an MBA, MPhil, and PhD in business management. With extensive expertise in consumer behavior, work-family conflict, corporate social responsibility, and psychological well-being, she has published extensively in internationally recognized journals and contributed to books and case studies on sustainability and analytics. A sought-after speaker and trainer, Dr. Poulose has delivered talks on leadership and professional growth at prestigious institutions and guided MPhil and PhD research in fields like big data analytics and healthcare supply chain management. She actively participates in workshops and training programs on cutting-edge topics, including Python applications in business and quality assurance. Her international engagements include leadership initiatives and strategic training programs. Dr. Poulose's dedication to teaching, research, and fostering innovation makes her a distinguished figure in business education.

3. **Mr. Siddharth Dubey**

Siddharth Dubey, MA, is an Assistant Professor with a keen interest in interdisciplinary research and academic development. His notable publications include *"The Soft Homogenisation of Democracy in India: Studying the Role and Long-Term Impact of Right-Wing Demagoguery During the Covid-19 Pandemic"* in *Javnost - The Public Journal of the European Institute for Communication and Culture* and *"Journeying through the Indian Railways in Around India in 80 Trains and Chai, Chai"* in the *Rupkatha Journal on Interdisciplinary Studies in Humanities*. He has actively participated in several faculty development programs and workshops, including the *International Faculty Development*

Programme on Future Innovations and Strategies in Teaching and Research and sessions on research methodology and digital humanities. Siddharth's dedication to research and teaching reflects his commitment to advancing knowledge in his field.

4. **Ms. Anu Varghese M**

Anu Varghese M, MA, is an Assistant Professor with a strong academic and research background. Her publication, *"Abjection and Intersecting Trans Women Identities: Examining 'Doing Gender' through Malayalam Movies Ardhanaari and Njan Marykutty,"* reflects her research expertise. She has presented papers at national and international conferences, Actively involved in professional development, she has participated in international workshops like *"Reading and Researching the Literature of Crisis"* and *"New Frontiers in Literary Research,*" and served as a resource person on *"Demonstrating Selfless Leadership Behavior-Servant Leadership."* Her dedication to research and teaching highlights her commitment to academic excellence and meaningful contributions to her field.

5. **Dr Riya Baby**

Dr. Riya Baby is an accomplished academic associated with Christ University. She completed her Ph.D. at the university, focusing on Mathematics, and holds the distinction of being the First Rank holder. Currently serving as an Assistant Professor in the School of Sciences, Dr. Riya Baby's research interests likely span areas such as Applied Mathematics, R-B convection problem, Porous media, Micropolar fluid, and Modulation. Her contributions to academia and dedication to teaching make her an integral part of the university community.

6. **Dr. Shoney Sebastian**

Dr. Shoney Sebastian, Professor at CHRIST University, has made significant contributions to research in the field of science. His work includes topics such as Secured and Provisioned Access Authentication in Federated Clouds, Indoor Location Tracking, and IoT-Based Car Accident Detection. Additionally, he has explored digital signature algorithms for optimizing Bitcoin transactions. Sir has published research papers in several renowned national and International Journals indexed in Scopus and Web of Science.

7. **Dr. Varuna Gupta**

Dr. Varuna Gupta, is an Associate Professor in the school of sciences at CHRIST University, Delhi NCR Campus, Dr. varuna brings 16 years of wealth of valuable experience to her role. With a background in Computer Science, she has worked as

Assistant Professor for various institutions like Inmantech Institution, Sikkim Manipal University. She is specialized in Object oriented programming, C++. She has presented and published multiple papers through prestigious conferences like IEEE. She has also conducted multiple workshops for students on the topics related to AI.

8. **Dr. Kusum Lata**

Dr. Kusum Lata, an Assistant Professor with an MA, MPhil, and PhD, is a distinguished scholar specializing in social sciences, media, and education research. Her academic contributions include numerous journal articles, conference presentations, and invited talks on topics such as sanitation, digital media, and public policy. She has organized, moderated, and presented at national and international conferences and workshops, reflecting her expertise in areas like ethnography, social praxis, and educational innovation. Dr. Lata has conducted research funded by the National Commission for Women and was awarded a Post-Doctoral Fellowship by ICSSR. Actively engaged in professional development, she has participated in various FDPs, workshops, and training programs, contributing significantly to interdisciplinary research and capacity building in education and social sciences.

9. **Dr. Sreelatha**

Dr. Sreelatha R, an Assistant Professor at CHRIST University Delhi NCR Campus, she has made significant contributions in the field of Psychology. Her expertise spans areas such as Diagnostic Interviews, Neuropsychological Assessment, and Positive Psychology. With a focus on rigorous research, she has authored several publications of national as well as international repute indexed in Scopus and Web of Science.

10. **Dr. Tanupriya**

Dr. Tanupriya is an Assistant Professor with an MA, MPhil, and PhD, specializing in gender studies, LGBTQ+ identities, and social sciences. Her academic contributions include numerous journal articles, such as studies on gender nonconforming female bodies and hegemonic femininity in Indian culture, published in renowned journals like *QED: A Journal in LGBTQ Worldmaking* and *Monthly Review Journal*. She has also contributed chapters to the *Routledge Encyclopedia of Indian Writing in English*. Dr. Tanupriya has presented at various prestigious conferences, including international venues such as Amity University and the University of Cambridge. She has guided MPhil/PhD students and actively participates in workshops and training programs, focusing on research methodologies, literary studies, and gender equality. With extensive experience in academic leadership, Dr. Tanupriya is committed to advancing gender studies and fostering inclusion in academic and cultural contexts.

11. Dr. Sneha Saha

Dr. Sneha Saha, an Assistant Professor in the Department of Psychology at CHRIST University, brings a wealth of experience to her role. Her doctoral study focused on the capacities of positive youth development interventions on adolescents. She is an awarded gold medallist for a Master's degree in psychology and research methodology. Notably, her large-scale publication are of national as well as international repute, titled "The Cinderella Complex Scale: A Measurement of Women Dependency Syndrome," is widely used by young researchers in the field of psychology.

12. Dr. Ramesh Chandra poonia

Dr. Ramesh Chandra Poonia is a Professor specializing in Artificial Intelligence, Machine Learning, Data Security, Signal and Image Processing, Healthcare, Biomedical Engineering, and IoT. He holds a PhD and has authored numerous high-impact articles in peer-reviewed journals, including works on machine learning in heart disease prediction, AI-based models for Alzheimer's disease detection, and the use of deep learning in COVID-19 diagnosis. Dr. Poonia has contributed to several academic books and chapters, such as *Deep Learning for Sustainable Agriculture* and *Cyber-Physical Systems: AI and COVID-19*. He has actively participated in various international conferences, including the 2023 3rd International Conference on Mobile Networks and Wireless Communications. With a passion for research and innovation, Dr. Poonia's expertise also extends to mentoring students and fostering academic growth.

13. Dr. Aneesh K A

Dr. Aneesh K A is an Assistant Professor with a specialization in economics. He holds an MA, MPhil, and PhD and has authored articles in prominent periodicals and journals, including the *Indian Journal of Human Development* and *OIKOS- The Economics Magazine*. His research interests span areas like education inequality, health equity, economic growth, and public investment. Dr. Aneesh has actively participated in numerous seminars, conferences, and symposiums, contributing as both a presenter and organizer at various international and national events. He is also involved in research projects focused on women farmers and wage laborers. Dr. Aneesh has received accolades such as the Junior Research Fellowship (JRF) and National Eligibility Test (NET) from the University Grants Commission, and an Erasmus Plus International Credit Mobility Scholarship from the European Commission. He has also been an invited resource person and trainer for various workshops, including those on leadership, curriculum development, and digital innovation in education.

14. Mr Denish Sebastian

Mr. Denish Sebastian is the head librarian at CHRIST University Delhi NCR Campus, a prestigious institution known for its holistic approach to education.
