Analysis of Feedback of Investiture Ceremony

1.

How was the organisation of the event on a scale of 1 (very poor) to 5 (very good)

6 responses

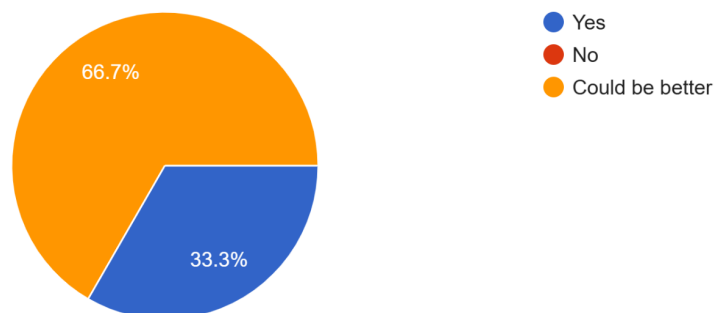

2. How could the organisation of the event be improved?

- The time management for each speaker/club could be better cause it extended over lunchtime time and by the time the actual clubs were introduced, half the audi was empty
- It could have been shorter. It felt very much like a conference

3.

Was the work for the ceremony properly allocated? (CRs)

6 responses

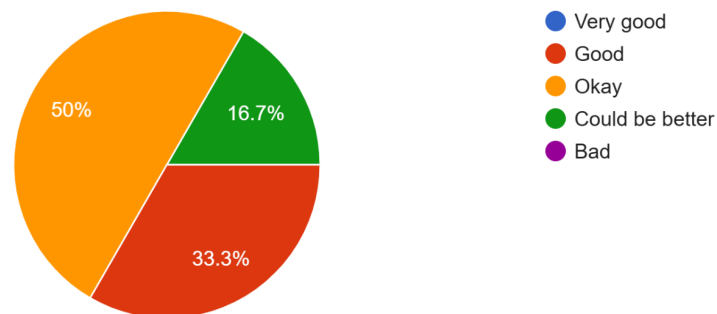

4. How can the allocation of tasks be improved for the same?

- They can be more clearly defined. We were mostly lost
- Prior information with proper assignments, proper instructions about the work to be done and how to do it
- They made me (5'1) lift the heavy chairs. Perhaps more capable people could be allotted to that task next time

5.

How was the structure of the event?

6 responses

6. What was your key takeaway from the event

- I learnt a lot about the different clubs in psych association
- The speaker was nice

7. What did you like about the event?

- The clubs are interesting
- It was informative
- The ceremony
- The bond between the professors of our department is something I've always appreciated.

7. General suggestions (if any)

- It can be a shorter more concise ceremony with more time to talk about the club's so that students can remain interested
- prior instructions need to be given, we are class representatives and a few of us are new to campus and don't know anything about this association or the clubs in it...maybe we should have been informed about everything better. Duties needed to be properly assigned, even after the event started, people didn't know what they had to do and where they needed to be
