She brings in the rigour of an academic researcher and the interdisciplinary industry experience of a practitioner.

Expert in providing a range of advice on policy decisions, preparing reports and briefings, undertaking research and analysis, and creating relationships with key stakeholders.

***Dr Cherukuri Ravindranath Chowdary***

Assistant Professor

Department of Computer Science and Engineering

He is particularly interested in the creation of secure systems and designs that can be applied to engineering science practice and theory (emphasizing the usage of digital Multimedia processing, information assurance and systems technologies to solve multimedia transmission challenges currently faced by the military and industrial information processing & transmission centers)

***Dr Parvati Ramaswamy***

Professor

Department of Mechanical & Automobile Engineering

Dr Parvati Ramaswamy is a professor of Mechanical & Automobile Engineering in CHRIST Bangalore Kengeri Campus. She has received over 20 accolades and currently holds 3 patents, the most recent one dealing in spray dried nano ceramic particles

Detailed Webinar Report:

Prof Krishna M C kickstarted the sharing session with projects relating to General Management certification courses for women executives and Advanced courses in general management for Directors' with [24]7. ai and talked about their various cycles and sessions.

- Dr Arathi Venkatesh shared the insights on Project: Advanced Course in General Management for Directors' as well Psychometric Tool Development for biases involving faculty members from various departments from central and BGR campus.

- Dr Sapna S addressed the audience with 7 point formula for a successful project proposal, later she shared her insights on a government project with a duration of 6 months called 'Gender Equality Training and Legal Advocacy for Capacity Building of Women in the Unorganised Sector.

- Dr Debabrata Samantha addressed the audience with several projects involving various tools of Computer Science such as Image Processing, Quantum Cryptography, Cellular IOT VANET & Wireless Sensor Network. It revolved around how they have consulted several firms providing their expertise in this domain.

- Dr Praveen Babu introduced the Consulting Consortium currently active in Central campus & Bannerghatta Road campus. He further shared the objective and achievements of the student interns as a part of consortium and presented with the E-brochure of CHRIST Consulting as well.

- Dr Padmini Ram introduced CHRIST-LabourNet Academic Research Endeavour (CLARE), threw light on its modalities, current tasks undertaken and also about the team.

Bethumbaleem

- Dr Cherukuri Ravindranath Chowdary introduced Industry Institute Interaction Cell (IIIC) at Kengeri Campus catering to School of Engineering and Technology, School of Architecture & School of Business and Management (Kengeri Campus). Further Dr Cherukuri shared the achievements and revenue centres of their consulting projects.
- Our last expert, Dr Parvati Ramaswamy introduced the Consulting projects by the School of Engineering and Technology (SOET), Kengeri Campus. Their projects involved the use of ‘Laboratory Spray Dryer’, which is generally used in the Food, Pharma and Medical industry and how it generates business out of their technical expertise.
- The extensive sharing session was then wrapped up with Q&A.
