**Organization and Place:**Christ University, Bengaluru (Internal).

**Target Audience (Students):** Students of 4<sup>th</sup> semester.

**Total Students' Present:**All registered participants for the event.

**OBJECTIVE:**

To create an awareness of Full Stack Web Development and to encourage students to build applications using the framework.

**POSSIBLE LEARNING OUTCOMES:**

1. To understand the technological trends in Full Stack Web Development
2. To build web applications

**SUMMARY:**

This workshop took off at 10th of Nov and concluded at 11th around 1pm .This workshop was learning course for web development enthusiasts has this had various fields to concentrate on such as frontend ,storage ,backend.There were 11 registrations from second year who came in to this workshop with high spirits to get more knowledge on web development.

The workshop was carried out by Venkat (1560455) and Nikhil Tanni(1560440) of 6btcsA.The workshop had great amount of content to teach has participants were unaware of basics. Hence, after analyzing the situation the syllabus was made. The contents where HTML5, CSS, JS, PHP, My SQL.

## CU\_CSE\_2017\_FULL\_STACK\_WORKSHOP\_NOV\_2017\_v1

The participants were highly excited when they designed their own web page. The application was about a user registration page. At the end of 10th of Nov as per syllabus was planned the UI/UX was thought and implemented by participants. The second day they were made to go through basic PHP syntax and communication between PHP and MySQL and were successful enough to complete the backend of the given application.

To conclude the workshop in charge made sure participants weren't left out behind syllabus and made sure they understood. The volunteers were always there in need to help the workshop in charge. The participants were satisfied with great feedback on requesting to conduct few more workshops like this.
